CAREER OBJECTIVE

Motivated and detail-oriented Software Engineer specializing in backend development, seeking opportunity to contribute to scalable, production-grade systems. Proficient in ASP.NET Core, C#, Entity Framework Core, PostgreSQL, SQL Server, and MongoDB, with hands-on experience designing RESTful APIs, implementing JWT-based authentication, and managing relational and non-relational databases. Demonstrated ability to independently architect and deliver full backend systems, with additional exposure to big data technologies including Apache Hadoop and Apache Spark. Committed to continuous growth through consistent algorithmic problem-solving practice on LeetCode and a disciplined approach to writing clean, optimized code. Eager to bring strong ownership, engineering discipline, and a problem-solving mindset to a team building meaningful software products.

KEY EXPERTISE

C# API Web API ASP.NET MVC Authentication Databases Learnability Big Data

EDUCATION

Navrachana University

2023 - 2027

B.Tech. - Computer Science & Engineering | CGPA: 9.24 / 10

St. Kabir School, Vadodara

2023

12th | GSEB | Percentage: 73 / 100

St. Kabir School, Vadodara

2021

10th | GSEB | Percentage: 93.50 / 100

AWARDS AND SCHOLARSHIPS

- Dewang Mehta Top Ranker 2025 Certificate

PROFESSIONAL EXPERIENCE

Navrachana University

05 Jan, 2026 - Present

Student Intern

Key Skills: Excel Data Science Python

Supporting faculty in conducting and managing the academic curriculum for the Data Science course at Navrachana University.

PROJECTS

JSeeker

21 Jun, 2025 - 30 Jan, 2026

Team Size: 1

Key Skills:

MVC REST ASP.NET ASP.NET Web API Authentication Entity Framework Core C# API Database
SQL Server SQL Server Management Studio Leaflet

Project Link: <https://github.com/Harsh-Patel-22/JSeeker>

JSeeker is a locality-first professional networking and hiring platform designed to connect job seekers and hirers within a defined geographic area. Unlike traditional job platforms that prioritize global reach, JSeeker focuses on helping users discover relevant opportunities nearby, reducing hiring friction and improving hiring outcomes.

The platform combines AI-powered candidate evaluation, GitHub project intelligence, automated resume generation, and structured hiring workflows into a single ecosystem.

Project Vision: To create a modern local talent ecosystem where seekers discover relevant opportunities nearby and hirers identify qualified candidates efficiently through skills, projects, and intelligent matching.
